Firewalls

These serve as the sentries for your electronic business, inspecting incoming traffic for intruders and blocking access to websites the company deems off-limits.

META'S TIP: Check Point and Cisco lead the market, but NetScreen is still a significant challenger, particularly with virtual private network (VPN) capabilities.

Interactive Flash Presentation

In conjunction with Sp3d Media Design in San Francisco, CA, we designed and produced a flash based interactive presentation.

The flash piece focused on the display of information related to the parts and pieces necessary for web-based e-Commerce solutions.
